### New luxury resort

**Carneros Partners**, a San Francisco-based development group, recently announced the opening of the on-site sales office for 24 residences at **The Carneros Inn** in Napa Valley. The new property is scheduled to be completed in November.

Buyers of the new homes will enjoy access to all the services and amenities of The Carneros Inn, including fine dining, spa and concierge service. The homes, the first phase of which has sold out, are currently being offered at just over \$1 million each.

"These are the first luxury resort homes ever to be offered in the Carneros winegrowing appellation," said **Keith Rogal**, founder and CEO of Carneros Partners. "Residents will experience the unspoiled natural splendor of the Carneros region while enjoying the exclusive services and amenities of a luxury resort."

The Carneros Inn homes will feature three-bedroom, three-bath floor plans and approximately 3,800 square feet of total living space. In addition, every home will offer parking, fireplaces, outdoor courtyards, roof decks and observation towers with spectacular views of the Carneros region and the surrounding mountains.
